Notes: Names were chosen by ranked email submissions, and draft order was determined at random. An asterisk (*) indicates a keeper pick from the 2007 Fan Death Pool and were selected before the draft. Nigel Rosenblum and Katie failed to send in enough names to cover 15 rounds of draft, so they have less than 15 names listed.

The number in parentheses is the number of points the player will receive if the person dies on or after his or her birthday in 2008. This number the persons age subtracted from 100. For example, Dick Clark turns 79 in 2008. If he dies on or after his birthday, Nigel receives 21 points (100-79 = 21). If he were to die before his birthday, he would be only 78 at his death and Nigel would receive an extra point (100-78 = 22). Listen to the podcast at www.coreyandjoelradio.com
